

Security workshop

Ensure that Qualifio meets your security and data protection requirements

A Qualifio security expert will sit together with your team to review your security and data protection requirements and make sure Qualifio complies with your company security standards as well as legal requirements (such as GDPR).

Possible topics of this workshop:

- Review and discuss Qualifio IT, organisational and legal measures aimed at protecting your data
- Review your checklists of security requirements and confront it with Qualifio's measures
- Organise pen tests, if applicable
- Demo and set-up our Data Integrations monitoring tool
- Demo and set-up our GDPR toolbox, allowing you to collect data in a full GDPR-compliant way
